FOLIANT GEMINI C 400 from 2013

Laminators Sheet

Offer Details

Offer Number	384470
Brand	FOLIANT
Model	Gemini C 400
Manufacturer	FOLIANT
Condition	Good
Year	2013
Incoterm	
Cylinders Condition	
Under Power	No
Still in production	No
Test possible	No
Complete and in working condition	Yes
Availability	
Counter	
Machine number	
Description	the Foliant Gemini C400A is a fully automatic, high-pressure thermal laminating machine, ideally suited for professional single-sided lamination, particularly for output from digital printing presses. The machine features a sophisticated vacuum belt automatic feeder for reliable, continuous operation and uses a pneumatic system to apply high pressure to the laminating rollers, ensuring impeccable lamination quality, even on challenging digital materials. A key feature is the integrated compressor, which means no external air source is required. Crucially, this specific machine includes the JG-400 Jogger delivery unit, which is an essential accessory. The jogger receives the separated, laminated sheets and squares them up into a neat, stackable pile, optimising the workflow for subsequent finishing processes like guillotining. The C400A is also equipped with an Anti-Curl Mechanism (de-curl blade/roller) to ensure the laminated sheets remain perfectly flat.

Technical details

Max sheet size	380x700 mm
Min. sheet size	200x300 mm
Mech. speed	15 m/min.
