Machine number	

Description	James Burn International JBI Lhermite EX-610 Capable of producing up to 100,000 punched sheets per hour. Punches preprinted collated documents with or without mixed stocks. Punches up to 24″ on the binding edge. The machine comes complete with the optional descending delivery with 2 trolleys. Very high output and powerful : running at up to 7,200 cycles / hour, it is the fastest punch in its range. Continuous paper loading speeds productivity. The EX machine range punches virtually any type of stock and material that will be retained in their pre-collated sequence. Versatile : the EX machine range can accommodate a very wide range of sheet sizes and applications. It will perform all types of punching works on up to 3 lines. The EX machine range can be equipped with either high pile reception or variable speed conveyor for continuous delivery or a simple jogger. User-friendly & precise : fast and simple to set up and operate with quick tool change over. Sheets are automatically aligned both ways with micro adjustment. One direction, one level, permanent sheet transport control and absence of contact of transport belts during punching ensure precision punching and unmarked sheets. Ultimate high volume punch Punch up to 100,000 sheets per hour Calendar, 2:1 pitch and 3:1 pitch tools included Continuous Deep Pile Feeder and delivery
