POLAR LW 2000-6 from 2011

Pallet Lifter

Offer Details

Offer Number	369752
Brand	POLAR
Model	LW 2000-6
Manufacturer	POLAR
Condition	Good
Year	2011
Incoterm	Load On Truck
Cylinders Condition	
Under Power	No
Still in production	No
Test possible	No
Complete and in working condition	Yes
Availability	09-2026
Counter	
Machine number	
Description	POLAR Stack Lift LW 2000-6 It provides for ergonomic working at a user-friendly working height by automatic lifting and lowering of palletized cutting material. Customer Benefits • Increases the efficiency of the cutting machine by up to 10%, because working height remains constant throughout loading and unloading procedures • Lifting heavy loads is reduced to a minimum • Operator's productivity curve remains constant • Substantial reduction of occupational diseases The POLAR Stack Lift LW 2000-6 lift is predominantly employed for handling offset class 100 × 140 | 56". Since the material to be cut is lifted automatically, the operator loads the material into the jogger or directly into the cutting machine at an ergonomic height. The lift can also be used for stacking the material. In this case the lift is lowered semi-automatically. This means that the procedure is started manually, but stopped automatically by the light barrier

Technical details

Max size	1050 × 1450 mm
Max load	2000 kg

PRICE: EUR 3.500 LOT
