| <b>Description</b>                       | <p>Hand feed position for the feeding of pre punched book blocks B599 Automatic closing unit with;</p> <p>Twin Spool wire unwinds system, with paper waste extraction, with automatic change over when spool is low / empty, which ensures consistently high production.</p> <p>Computer controlled programming of binding, from one length, skip feed, up to five lengths in one pass.</p> <p>Automatic wire cutter, toothed belts for different pitch, 3:1 and 2:1. Sprockets for 2:1 and 3:1 pitch.</p> <p>Capable of processing either round or square punched work.</p> <p>Speed adjustable up to 4000 bindings per hour, depending on format, thickness, operator skill, and the quality of work being bound.</p> <p>Dedicated wire guide, turning, closing tools for each diameter, with fast change over times possible due to easy to install methods for the tooling.</p> <p>Microprocessor controlled quality checking systems to ensure that production runs smoothly, with read out on the computer screen advising the operator and management of faults, and productivity information.</p> <p>Extended shingle belt delivery.</p> <p>A set of tools for all common sizes of wire from 5/16" up to 1".</p> |
