Year	2011
Incoterm	Load On Truck
Cylinders Condition	
Under Power	Yes
Still in production	Yes
Test possible	Yes
Complete and in working condition	Yes
Availability	
Counter	
Machine number	
Description	The specified values are listed as the machine-technical performances using original W + D format parts and components. The achievable performance in practice depends on various parameters beyond our control, e.g. on the characteristics of the materials to be processed, the product and blank shape, window size and position of the windows, feed direction, position and type of the closure flap, as well as the print motif and printing ink. STANDARD The machine is used to print on both sides of pre-made envelopes and mailers with conventional offset printing inks. The printing units are arranged in satellite form around a central counterpressure cylinder.

Technical details

Max. size	229x162 mm
Mech. speed	42000 envelopes p.h.
Stock thickness	60
Colors	1/1 2/0

PRICE: Upon request
